

What happens at an Annual Health Check?

Abdominal examination

stomach

At your annual health check your doctor will ask if they can feel your stomach.

hospital bed

This is called an abdominal examination.

They will ask you to lie on the bed.

hands

They will check your stomach with their hands.

stethoscope

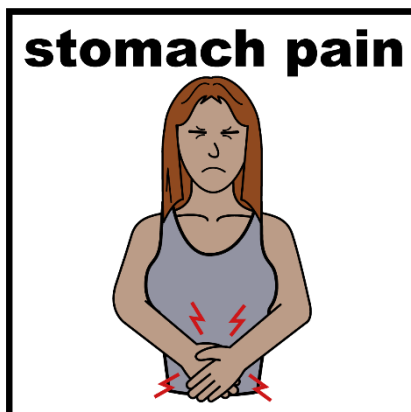

They might also use a stethoscope to listen to your stomach.

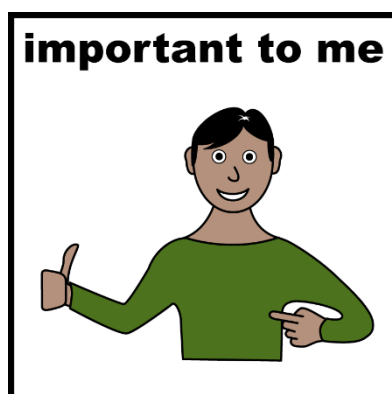

The doctor will feel your stomach to make sure everything feels normal.

They will also check that you are not constipated.

You should tell the doctor if you have had any pain in your stomach.

This is a very important part of your annual health check.
